- 3D Character Animation
- Autodesk Maya, Blender
- Creative Storytelling

Profile

I'm Md Zafar Iqbal, an aspiring animator with a strong foundation as a composer and 3D artist. My passion lies in bringing characters and visuals to life through animation, motion graphics, and visual effects. With a blend of storytelling, creativity, and technical expertise, I craft engaging animations that not only entertain but also connect with audiences. I'm constantly exploring ways to push the boundaries of digital storytelling, evolving from 3D artistry to the dynamic world of animation.
